Ben,
It was a great pleasure to have you be part of CreateTech this year. Your contribution was enormous and much appreciated. Looking forward to exploring future collaborations very soon.

Best,
Chick

Hi both

Thanks so much for inviting Drew and me to come and speak at today's conference. I think that Create Tech is among the very best gatherings of change makers and inventors (in the original and magical sense of that term) and so it was an honor to be amongst all those clever people. As I noted in an early tweet, it was also fantastic to see so many women speakers on panels and presenting generally.

I'm mainly writing to apologize for leaving early, today, and not being able to stay for tomorrow, which looks like a fantastic line-up again. Some urgent and unfixable-from-afar things blew in and I have to be back in NYC.

Please count us in for next year - maybe we can lean in further and help you either source speakers or generate pre-conference hype and interest, or write about it afterwards in some way? Not sure, we should chat. Very keen to support what you are doing.

Anyway, thanks for having us. Good luck for tomorrow.

Regards,

Ben
