Internet of things' turns up the heat on utilities

Like most people, Sean McBriarty has always been less than thrilled with his thermostat. Programming it involved us... Now the Tulsa, Oklahoma, resident has a Nest thermostat. It has a cool-looking dial that, strangely enough, he doe... What he might not fully realize is that his thermostat — this wireless, cloud-connected, attentive gadget on the wall... It's actually an armament in a battle among corporations to control the home's operating system. Whoever wins, it i...
